BioFit. Dedicated to Design. Committed to Quality.

At the forefront of ergonomic seating, BioFit's focus every day is to improve the workplace experience through ergonomic performance, comfort, style and reliability. We've been an innovator since our inception, introducing solutions for science, industry, healthcare and education. With a global network of over 800 independent distributors, we continue to proudly serve these industries today.

Our Promise:

- Design Innovation
- Quality Products
- Manufacturing Excellence
- Customer Satisfaction

Why Choose BioFit?

BioFit is the technical seating market leader. Globally renowned corporations, major hospitals, universities and small businesses alike turn to us for innovative, high performance ergonomic seating, tables and accessories. Reasons include:

- Identified by a majority of the top 50 experts in the static control/ESD and clean room industries as the source for technically superior seating solutions
- Chosen for “Award-Winning Innovation” by industry leaders, featuring solutions for healthcare, technology, education, lab, industrial, office and custom applications
- Technical advantage gained from our expert internal engineering and design teams

Product Advantages

BioFit delivers more product options to meet workplace requirements and propel customers to higher operational efficiencies.

- Ergonomic design enhances worker comfort and productivity when sitting for long periods of time; easily adjusted controls to meet the needs of multiple shift users
- High-end aesthetics enhance and complement workplace and institutional environments
- Modular construction enables custom configurations to meet specific needs
- Standard components that many manufacturers offer only as costly upcharge options

Intensive Plus with optional height-adjustable armrests with self-skinned urethane pads, low seat height range

Dedicated to Design.
Committed to Quality.

Award-Winning Innovation

BioFit Product Quality

The reliability and durability of BioFit products lower your cost of ownership, significantly contributing to better bottom lines:

• **13-Year Warranty** - Nearly all BioFit products are warranted to the original purchaser against mechanical or structural failure due to defective material or workmanship for 13 years of normal, multi-shift use. Pneumatic cylinders are covered for the functional lifetime of the chair or stool.

• Scan this QR code for full details.

• **QR Code Profile System** - Our proprietary QR Code Profile System is now available on the entire BioFit Seating line! Information specific to every seating unit ordered is instantly accessible on the user's smartphone. The system allows customers to access operation and assembly videos, reordering information, warranty balance and more.

• **ANSI/BIFMA Rated, LEED® Compliant** - BioFit seating complies with ANSI/BIFMA X5.1 product safety and performance standards guidelines as established by the Business and Institutional Furniture Manufacturers Association. BioFit seating is also LEED compliant for use in commercial interiors.

Build Your Own Chair

BioFit revolutionized the industry with the launch of the BYOC seating configurator nearly a decade ago. Thanks to the modular construction of our products, you can create your desired chair, request a quote and order seating for your unique requirements right from your smartphone. Scan this QR code and try it yourself.

Shown here:
MVMT Pro Series with tall backrest, high seat height range

On-site Sample Program

BioFit offers a 30-day “try before you buy” sample program, allowing customers to field-test seating at their location, whether it’s a model they build using our online configurator, or a model one of our experienced representatives help them select based on the needs of their workspace.

Supply Chain & Distribution

No-surprise delivered prices – ground freight to lower 48 states included on all orders over \$3,500 list pricing shown in this catalog. See Order Information on page 6 for full details.

- On-time delivery 95+%
- Comprehensive network of dealers
- GSA and multiple state and educational procurement contract partner

Shown here:
MVMT Pro with P28 base, high seat height range and Avenue series with A base, low seat height range

Value-added Services

BioFit strives to provide the best possible service and support – before, during and after the sale. We offer:

- A personable, highly experienced customer support team – ensuring you get what you need, when you need it. Call our 800# or use the chat feature on our homepage and speak to our factory team directly.
- An extensive, knowledgeable North American/international field sales team
- 3D models, Revit families and 2D symbols to facilitate plans
- Accredited continuing education course: Demystifying the Process of Specifying Technical Seating for Clean Room and Static Control/ESD Environments

With the MVMT QR Code system, information specific to your MVMT chair is available on your smartphone. You can access operation and assembly videos, reordering information, warranty details and more.

Get Your Chairs Fast!

Quick Ship Program

Get chairs fast with BioFit's Next Day Shipping (NDS) and 2-Day Shipping (2DS) Programs. You can order limited quantities of models from our most popular series for fast shipping. With Next Day Shipping, your chairs will ship same day or next day depending on the order time. With 2-Day Shipping, your order will ship within two business days, pending credit approval.

The "quick ship" lines include best-selling, cost-effective same-day or next-day seating solutions for healthcare, laboratory, office, education and industrial workplaces, as well as clean room and static-sensitive facilities.

How It Works

Need chairs next-day? Select standard Elite or UniqueU seating offerings and get next day shipping based on when the order is received.

Need chairs in 48 hours? Choose from the products listed in the following pages with green dots and shipment will be on its way within two business days, pending credit approval.

To order, simply note the MFG code or model number and contact

Industrial Ergonomics, Inc.
612-532-6774
sales@industrial-ergonomics.com

*NDS: Orders received at BioFit by noon EST ship Next Business Day. Order up to 9 chairs per day per customer for NDS via FedEx ground. 2DS: Orders received at BioFit by noon EST ship in 2 Business Days. Order up to 15 chairs per day. Quick Ship available in USA only. Once order is placed and credit approved, chairs will ship directly from the BioFit facility. Orders that are less than \$3,500.00 list price, there will be a \$15.00 per carton handling fee. Prices are F.O.B.

- BioFit offers a comprehensive selection of seating and adjustable footrests compliant with Healthier Hospitals Initiative guidelines.

A PRACTICE GREENHEALTH PROGRAM

Order Placement Instructions & General Information

How to Order

1. Provide the quantity, manufacturing code or model number and any accessories for each item. Refer to the manufacturing code protocol on the following page for user-friendly instructions on identifying the code of the product(s) you select. Manufacturing codes and model numbers for standard and optional components can be located on each product page.
2. Provide upholstery and metal part finish selections.
3. Provide complete bill-to and ship-to addresses.

Order Changes and Cancellations

Once entered in our system orders may not be changed, cancelled or delayed without BioFit's consent. This will be determined depending on the stage of production and BioFit must be indemnified from loss. Thus the buyer will be responsible for material, labor or storage costs of changed, cancelled or delayed shipments. Once the merchandise has been shipped, the buyer is obligated to accept delivery from the carrier. Special care should be taken when ordering Quick Ship models to assure accuracy because they may ship the same day they are placed thus cancellations or changes may not be possible under any circumstances.

Returns

BioFit reserves the right to refuse return of any merchandise unless it is determined to be BioFit's responsibility. Any merchandise accepted for return must have prior written authorization and may be subject to a 25% restocking charge.

Order Placement Instructions & General Information

Shipment Information

The delivered prices shown in this price list include surface transportation by BioFit's choice of carrier to anywhere in the lower 48 states. Shipments to Alaska, Hawaii, Puerto Rico or for export will be shipped to the lower 48 port of departure specified by you, the BioFit distributor, who will be responsible for the shipment from that point.

Please note that orders less than \$3,500.00 list will incur a \$15.00 per carton handling fee.

Blanket wrapped, airfreight, other special delivery methods, or other special services (such as inside delivery, metro charge, lift gate, limited access, notify before delivery, etc.) will still be available at extra cost and will be quoted on a case-by-case basis.

Upholsteries

- For standard upholstery options, scan this QR code. Contact BioFit for client's own material (COM) pricing. Please note that orders calling for COM may be cancelled by BioFit, if, in its sole opinion, material is not sufficiently workable.

Sales Policy

Possession of this price list does not necessarily suggest an offer to sell.

Minimum Order

BioFit does not have a minimum order on products in this catalog.

Optional Components

Use this legend to determine which BioFit product line applies to specific optional components

Optional Components Legend

MVMT Line = **M** Foundation Line = **F** bimos Line = **B**

Seats

A – Saddle-shaped, contoured seat with waterfall front, 21" wide x 19" deep x 3" thick **F**

Backrest

M – Larger ergonomic backrest, 18" wide x 19" high, for both lower and upper back support; available on chairs with a seat height no higher than 32" **F**

Casters and Glides

HG – 2" high polyamide glides **M F B**

RC – Hooded dual-wheel, non-marring resistance casters; lock when seat is unoccupied – standard on most models **M F B**

RK – Hooded dual-wheel, non-marring resistance casters for ESD applications; resist movement when seat is unoccupied **M F**

Seat Controls

FFAC – Free Float Articulating Control: Pneumatic seat- and backrest-height adjustment; seat and backrest tilt independently with separate levers and can free float or lock into place **F**

EXE – Executive Tilt Control: Pneumatic seat- and backrest-height adjustment; backrest tilt; seat and backrest swivel tilt in unison; tilt tension control knob and single lever seat tilt lock into any position; only available on models with maximum seat height of 26" or less **F**

SLD – Seat slider bracket enables seat depth adjustment range up to 2.5" with locking positions every 0.5"; add to standard task, EXE or FFAC controls. Available on specific models and configurations. Refer to product pages for details **F**

ASC – Articulating Seat Control: Pneumatic seat- and backrest-height adjustment; seat and backrest tilt independently and lock into place with a single lever; only available on ISO 3 and ISO 4 performance packages models without arms **F**

Seat Controls (Cont'd.)

T – Task control with Soft Touch pneumatic seat height adjustment, fixed rearward 6° seat tilt, backrest tilt and backrest height adjustment **F**

Footrings

AFP – Adjustable height, 22" diameter, oval tube construction on solid polished cast aluminum spoke; adjusts easily without knobs or levers **M F B**

ATF – Adjustable height, 20" diameter, cast aluminum; recommended for models with seat heights greater than 22"; not available on low seat height models or models with S base **M F B**

Armrests

ARS – Height and width adjustable with self-skinned urethane pads; not available with ISO 3 or ISO 4 performance packages **F**

PSAS – Height adjustable with self-skinned urethane pads **F**

Fire Retardant

C133 – Special upholsteries, foam or barriers as needed to meet California Technical Bulletin 133 & Boston Fire Code; upholstery choices may be limited. Minimums of Grade 2/3 fabric or Grade 3 vinyl are offered. Not available in California. Contact BioFit for details. **M F**

Upholstery

COM – Customer's own material F	Grade 5 M F
Grade 2 – Standard	Grade 6 M
Grade 3 M F	Grade 7 M
Grade 4 M F	

Miscellaneous

FM – Memory foam **F**
SW – Skid wrapping **M F**
URS – Round seat, self-skinned urethane, 14" diameter, 1.5" thick; not for clean room use **F**
VU – Upholstered underwrap to match seat upholstery **F**

Work Surface Height

MVMT Ergonomic Seating

motion: full range | design: innovative

Technical applications demand different seating ergonomics from that of office seating. Working postures and motions are different. Workstation surfaces are higher. MVMT from BioFit represents a revolutionary advancement for today's clean room, static control, healthcare, laboratory, industrial, and standing-desk applications.

- Maximum seat-height range of 34", accommodates microscope, tissue culture, other lab/technical work
- Full adjustability, ergonomic support
- Comfortable, award-winning design
- Supports 350-lb capacity

World-class chairs for world-class labs.

Available in two series—MVMT Pro and MVMT Tech. The feature-laden Pro series offers a dozen standard ergonomic adjustments. The Tech Series, with a range of scalable options, is geared for use in the harshest industrial settings to the most technical facilities.

With the QR Code Profile System, information specific to your chair is available on your smartphone. Access operation/assembly videos, reordering information, warranty balance and more. Scan the code here for a demonstration.

Dedicated to Design. Committed to Quality.

This is BioFit's focus every day as we strive to improve the workplace experience through ergonomic performance, style and reliability. We've been an innovator for the past 70 years, introducing solutions for science, industry, healthcare, technology and education. With a global network of over 800 independent distributors, we continue to proudly serve these industries today.

11/19

MVMT Pro Series

Dedicated to Design.
Committed to Quality.

advantage: intuitive functionality | use: technical

supports
350
pounds

The MVMT Pro Series offers weight-activated control – meaning an individual user’s weight sets the tension, which alleviates resetting controls in multi-user/multi-shift workplaces. The seating is engineered for task-specific range of motion and 24/7/365 use. The MVMT Pro aesthetic complements interior design trends, positively impacting corporate image. Important technical benefit: ISO Class 8 to ISO Class 6 clean room and clean room/static control models are available. 13-year warranty.

Upholstered ergonomic seat.

Dual-wheel non-marring polyurethane casters resist movement when the chair is unoccupied, enhancing workplace safety by inhibiting seating from rolling away.

Control lockout is available for areas where work is so critical that any motion would create a profound problem. The control can be completely locked-out by means of a simple twist of a knob and can be locked in three different reclining positions.

The MVMT Pro design is created for today’s ultra-critical environments including static-sensitive and particle-/microbe-controlled areas. A BioFit exclusive: QR code profile system delivers individual webpage for every MVMT unit manufactured.

Shown here:
**MVMT Pro Series with tall backrest,
high seat height range**

MVMT Tech Series with Classic Base

advantage: versatility | use: clean room, static control/ESD, industrial, laboratory, healthcare

supports
350
pounds

Like the MVMT Pro, the Tech Series with Classic Base category was created for ultra-critical environments including static-sensitive and particle-/microbe-controlled areas such as medical device manufacturing, genetic research, pharmaceutical processing and similar facilities. Tech Series comes standard without arms to allow tucking under work surfaces. Models available with tall and medium backrests. 13-year warranty.

Standard as well as two optional controls available.

Upholstered ergonomic seat.

Dual-wheel non-marring polyurethane casters resist movement when the chair is unoccupied, enhancing workplace safety by inhibiting seating from rolling away.

Three high-profile base styles are available: Glass reinforced composite (mfg. code GR, on low seat height models only); 25.6" diameter aluminum (mfg. code P25); and 28.7" diameter wide aluminum (mfg. code P28).

Shown here: (foreground) **MVMT Tech Series with Classic reinforced glass composite base, medium backrest, low seat height range;** (background) **MVMT Tech Series with Classic, 28.7" diameter wide aluminum base, tall backrest, high seat height range**

MVMT Tech Series with HD Base

advantage: added durability | use: clean room, static control/ESD, industrial, laboratory

supports
350
pounds

Tech Series with Heavy-duty (HD) Base models offer the look and performance of the award-winning MVMT family with the addition of a rugged tubular steel base, making them a leading choice for today's industrial workplaces. Models available with tall and medium backrests. 13-year warranty. Tech Series comes standard without arms to allow tucking under work surfaces.

Upholstered ergonomic seat.

Black powder-coated paint finish standard on metal parts.

Dual-wheel non-marring polyurethane casters resist movement when the chair is unoccupied, enhancing workplace safety by inhibiting seating from rolling away.

Affixed footring, positioned 8" above floor level on HD bases for low and medium seat height models (mfg. code TUL), or 12" above floor level on HD bases for high seat height models (mfg. code TUH).

The MVMT Tech HD Base models are an ideal solution for harsh applications and 24/7/365 use. Standard E1 control regulates seat height and backrest angle while keeping the seat fixed at a 3.5° rearward angle (manufacturing code E1). Control which regulates seat tilt, backrest tilt and seat height from seated position is available as an option on MVMT Tech HD series (manufacturing code E2).

Shown here:

MVMT Tech Series with Heavy Duty base, tall backrest, medium seat height range (base shown features affixed footring positioned 8" above floor level, mfg. code TUL)

Unique Motion Simplified.

MVMT delivers an intuitive user experience featuring what may be the first self-regulating weight activation control in a specialized chair. This means it not only adjusts to the primary user's movements, but also automatically fine-tunes itself to others of various sizes and weights, sensing their individual support needs from the moment they sit down.

- Backrest lumbar support

- Optional adjustable urethane armrest pads on solid polished cast aluminum uprights

- Standard E1 control which regulates seat height and backrest angle

- Rugged tubular steel base with affixed footring positioned 12" above floor level (mfg. code TUH)

optional components

Component	MFG Code	Description
Seat	1B	Upholstered ergonomic seat, 20.5" wide, mounted rearward for 16.4" depth
Armrest	3D	Adjustable urethane armrest pads on solid polished cast aluminum uprights adjust 3.5" vertically, 2" front to back, 1" left to right on each armrest – for 2 full inches of width adjustment – and lock into place once adjusted
	XA	Without arms
Footring	XF	Minus AFP footring (med. & high height models)
Glides	HG	2" high polyamide glides
Casters	RC	Hooded dual-wheel, non-marring resistance casters, resist movement when seat is unoccupied
	RK	Hooded dual-wheel, non-marring resistance casters for ESD applications; resist movement when seat is unoccupied (standard with ESD performance packages)
Base	P25	25.6" diameter aluminum base*
	P28	28.6" diameter aluminum base*
Control	E2	Regulates seat tilt, backrest tilt and seat height from a seated position
	E3	Synchro-tilt control which regulates seat height, seat depth and tilt tension, and includes control lock out for precision work
Miscellaneous	SW	Skid Wrapping, net cost per pallet
	VU	Upholstered underwrap to match seat upholstery (available on MVMT Tech Series models only)

*Both of these bases are only available as options in place of the standard GR base on low height Pro and Tech Series Classic models.

See pages 8 and 9 for additional information on MVMT optional components.

ORDER

24 HOURS

The BioFit Quick Ship Program Just Got Quicker

Next Day Shipping Ensures Your Seating Success

Need chairs in a hurry? BioFit delivers—fast. BioFit now offers Next Day Shipping (NDS) for our customers on our most popular Elite and UniqueU seating. The NDS line includes best-selling, cost-effective next-day seating solutions for healthcare, laboratory, office, education, and industrial workplaces.

How It Works: Need chairs next-day? Select standard Elite or UniqueU seating (see the back of this flyer) and shipment will be on its way in 24 hours.* To order, simply note the Model# and contact Industrial Ergonomics at sales@industrial-ergonomics.com

Keep your business moving even faster. Look for the orange dot for BioFit's new NDS option and get your seating solutions shipped in 24 hours.*

The BioFit Advantage: BioFit delivers more product options to meet your workplace requirements and propel your business to higher operational efficiencies.

- Ergonomic design enhances worker comfort and productivity; easily adjusted controls to meet the needs of multiple-shift users
- High-end aesthetics enhance and complement work environments
- Standard components that many manufacturers offer as costly upcharge options
- 13-year warranty on 24/7/365 day use

Look for the  for Seating that Ships in 24-Hours.

Order Today!

*NDS: Orders received at BioFit by noon EST ship Next Business Day. Order up to 9 chairs per day per customer for NDS via FedEx ground. 2DS: Orders received at BioFit by noon EST ship in 2 Business Days. Order up to 15 chairs per day. Quick Ship available in USA only. Once order is placed and credit approved, chairs will ship directly from the BioFit facility. Orders that are less than \$3,500.00 list, there will be a \$15.00 per carton handling fee. Prices are F.O.B.

Avenue (AE) Series

advantage: versatility | use: clean room, static control/ESD, various workspaces

The Avenue (AE) Series features saddle-shaped seats and ergonomic backrests to promote user comfort and higher productivity. This versatile seating can meet clean room and static control demands. Its functional design allows use in a range of education, healthcare, laboratory, industrial and office settings. Options are available to meet a variety of needs and budget requirements. 13-year warranty.

- Cloth and vinyl upholstery styles available to match various workspace requirements.
- Saddle-shaped, contoured seat with waterfall front and internal seat board bumperguard.
- Meets CAL 117 fire retardant standards. Treatment to meet CAL TB 133 available as an option (not available in California).
- Black powder-coated paint finish standard on metal parts.
- Pneumatics are available to provide low, medium and high seat height ranges to accommodate many task requirements.
- High-profile Euro-look base with T-shape construction for added strength and easy cleanability.
- Dual-wheel non-marring polyurethane casters resist movement when the chair is unoccupied, enhancing safety by inhibiting seating from rolling away.

- 23" diameter tubular steel (S style) base with 21" diameter affixed footing.

- 25.6" diameter, high-profile cast aluminum (A style) base.

- 25.6" diameter, high-profile reinforced composite (R style) base.

- 28.7" diameter, high-profile wide aluminum (W style) base.

Bridgeport (BT) Series

advantage: ergonomic functionality | use: clean room, static control/ESD, various workspaces

Bridgeport Series chairs boast a number of benefits that make them popular choices for education, healthcare, laboratories, industrial, office and other workspaces: ergonomic functionality and a streamlined backrest. 13-year warranty.

- Cloth and vinyl upholstery styles available to match various workspace requirements.
- Ergonomically designed concave seat with internal seat board bumperguard.
- Meets CAL 117 fire retardant standards. Treatment to meet CAL TB 133 available as an option (not available in California).
- Black powder-coated paint finish standard on metal parts.
- Pneumatics are available to provide low, medium and high seat height ranges to accommodate many task requirements.
- High-profile Euro-look base with T-shape construction for added strength and easy cleanability.
- Dual-wheel non-marring polyurethane casters resist movement when the chair is unoccupied, enhancing workplace safety by inhibiting seating from rolling away.

Sewn Seams Series

advantage: comfort, performance, aesthetics | use: offices, various workspaces

The BioFit Sewn Seams ergonomic seating series delivers an optimum, long-term user experience – marked by reliability, quality and pleasing aesthetics. The series incorporates pre-formed contoured foam cushioning into each seat and backrest, then the seat and backrest are enveloped using a sewn-seam upholstery process that produces a noticeable increase in support that can lead to a higher level of user performance. All Sewn Seams Series models are available in optional static control/ESD configurations. 13-year warranty.

Features Common to All Sewn Seams Seating

- Many cloth upholstery styles are available.
- Meets CAL 117 fire retardant standards. Treatment to meet CAL TB 133 available as an option (not available in California).
- Black powder-coated paint finish standard on metal parts.
- Pneumatics are available to provide low, medium and high seat height ranges to accommodate many task requirements.
- High-profile Euro-look base with T-shape construction for added strength and easy cleanability.
- Dual-wheel non-marring polyurethane casters resist movement when the chair is unoccupied, enhancing workplace safety by inhibiting seating from rolling away.

standard components

Backrest with with lumbar support and plastic protective panel, soft touch pneumatic seat height adjustment; fixed rearward 3.5° seat tilt; backrest tilt and backrest height adjustment, grade 2 upholstery

Series	Seat Dimensions	Backrest Dimensions
FC	21"W x 19"D x 3"T	18"W x 19"H
FL	21"W x 19"D x 3"T	15.5"W x 14.5"H
HC	18.5"W x 17"D x 3"T	18"W x 19"H
HL	18.5"W x 17"D x 3"T	15.5"W x 14.5"H

All other optional components are the same for all four Sewn Seams Series. See included optional components below.

optional components

Component	MFG Code	Description
Armrest	ARS	Height/width adjustable with self-skinned urethane pads
	PSAS	Height adjustable with self-skinned urethane pads
Seat Control	FFAC	Free float articulating: pneumatic seat- and backrest-height adjustment; seat and backrest tilt independently via separate levers, and can free float or lock into place, seat can tilt forward
	EXE	Executive tilt: pneumatic seat- and backrest-height adjustment; backrest tilt; seat and backrest swivel tilt in unison; tilt tension control knob and single lever seat tilt lock into any position (<i>only available on models with maximum seat height of 26" or less</i>)
	SLD	Seat slider bracket allows seat depth adjustment up to 2.5" with locking positions every 0.5"; add to standard Task, FFAC or EXE controls (<i>Available with Task control and R or A base in low height only; available with Task Control and W base in all seat heights; not available on S style base; available with EXE control and W base only in low and medium heights, clean room models ISO 6 or higher. Only available with FC and FL models</i>)
Footring	AFP	Adjustable height, 22" diameter, oval tube construction, solid polished cast aluminum spoke (<i>recommended for medium and high height models with A, W or R bases, adjusts easily without knobs/levers; not available with low height models or S style base units</i>)
	ATF	Adjustable height, 20" diameter, cast aluminum (<i>recommended for medium and high height models with A, W or R bases, not available with low height models or S style base units</i>)
Glides	HG	2" high polyamide glides
Casters	RC	Hooded dual-wheel, non-marring resistance casters, resist movement when seat is unoccupied – standard on most models
	RK	Hooded dual-wheel, non-marring resistance casters for ESD applications; resist movement when seat is unoccupied (<i>standard with ESD performance packages</i>)
Miscellaneous	SW	Skid wrapping, net cost per pallet
	VU	Upholstered underwrap to match seat upholstery
	FM	Memory Foam

upholstery

Vacuum Formed Series

Advantage: fluid and bacteria resistance | use: healthcare, laboratory, clean room, education

BioFit vacuum formed models are designed to help protect against bacteria and prevent liquid infiltration into the cushioning of seats and backrests while retaining the same adjustability and ergonomic characteristics that have come to define BioFit chairs. The vacuum formed upholstery process also results in a more fully formed and aesthetically pleasing appearance — delivering enhanced comfort and performance for users and a positive workplace image. All Vacuum Formed Series models are available in optional cleanroom configurations. 13-year warranty.

Features Common to All Vacuum Formed Seating

- Slate blue and black vinly upholsteries are standard.
- Meets CAL 117 fire retardant standards. Treatment to meet CAL TB 133 available as an option (not available in California).
- Black powder-coated paint finish standard on metal parts.
- Pneumatics are available to provide low, medium and high seat height ranges to accommodate many task requirements.
- High-profile Euro-look base with T-shape construction for added strength and easy cleanability.
- Dual-wheel non-marring polyurethane casters resist movement when the chair is unoccupied, enhancing workplace safety by inhibiting seating from rolling away.

Shown here:
Vacuum Formed FC Series with A base, low seat height range

- 23" diameter tubular steel (S style) base with 21" diameter affixed footing.

- 25.6" diameter, high-profile cast aluminum (A style) base.

- 25.6" diameter, high-profile reinforced composite (R style) base.

- 28.7" diameter, high-profile wide aluminum (W style) base.

Vacuum Formed FC Series

Large seat and backrest

- 18" wide x 19" high backrest with lumbar support and plastic protective panel.
- Saddle-shaped, contoured 21" wide x 19" deep x 3.5" thick seat with waterfall front and internal seat board bumperguard.

Shown here:
Vacuum Formed FC Series with A base, optional adjustable-height ATF footring, high seat height range

Vacuum Formed FL Series

Large seat and small backrest

- 15.5" wide x 14.5" high backrest with lumbar support and plastic protective panel.
- Saddle-shaped, contoured 21" wide x 19" deep x 3.5" thick seat with waterfall front and internal seat board bumperguard.

Zephyr AP & FP Series

advantage: comfort | use: office, education, healthcare

An airy mesh back and choice of comfort-enhancing saddle-shaped seats provide an executive experience for users the entire workday and beyond. 13-year warranty.

Features Common to both AP & FP Seating

- 19"W x 24"H nylon mesh ergonomic backrest with composite frame, adjustable lumbar support and back height adjustment.
- Saddle-shaped, contoured seat with waterfall front and internal seat board bumperguard. Both cloth and vinyl upholstery styles are available on the AP seat.
- The FP seat features sewn seams and is only available in cloth upholstery.
- Meets CAL TB 117. Treatment to meet CAL 133 is available as an option (not available in California).
- Available with optional armrests.
- Black powder-coated paint finish on metal parts is standard.
- Executive-style control with pneumatic seat height adjustment, backrest-tilt adjustment, seat-tilt adjustment and spring-tension control knob.
- Pneumatics are available to provide low and medium seat height ranges to accommodate many task requirements.
- High-profile Euro-look base with T-shape construction for added strength and easy cleanability. Available in W or R style base.
- Dual-wheel non-marring polyurethane casters resist movement when the chair is unoccupied, enhancing workplace safety by inhibiting seating from rolling away.

Intensive Plus

advantage: comfort | use: healthcare, office, industrial, education

supports
500
pounds

Highlighted by a 500-lb. capacity and executive-style comfort, this series is designed for continuous, 24/7/365 use and backed by a 5-year warranty.

- Cloth and vinyl upholstery styles available to match various workspace requirements.
- Generously proportioned, contoured 20" wide x 23" high backrest with lumbar and kidney support.
- Saddle-shaped, contoured seat with sewn seams to help inhibit foam compression and maintain profile, waterfall front and internal seat board bumperguard.
- Black powder-coated paint finish standard on metal parts.
- Pneumatic provides seat height adjustment range to accommodate many tasks.
- 5-point star-shaped 27" diameter polished aluminum base.

Available with heavy-duty glides (Model FSP-M-HG-XF-XA-06) or 3" diameter, dual-wheel casters that are load rated to 165 pounds each (Model FSP-M-IPR-XF-XA-06).

Shown here:
Intensive Plus with optional height-adjustable armrests with self-skinned urethane pads, low seat height range

Executive Seat Control with Seat Slider: pneumatic seat-height adjustment and backrest height adjustment, seat and backrest swivel/tilt in unison, tilt-tension control knob and single lever seat tilt lock in any position. Seat Slider allows seat depth adjustment range of up 2.5" with locking positions every 0.5".

Enhance your Ergonomic Experience

use: office, healthcare, laboratory, education, industrial

Shown here: **Left to right, FS-2 and FS-1**

bimos by BioFit™ Collection: Trend

advantage: ergonomics | use: laboratory, healthcare, industrial, education, office

This series combines full ergonomic functionality, versatility and a stance that make it a practical seating solution for a variety of tasks and workspaces.

- Generously proportioned 19.75" high x 17" height-adjustable backrest.
- Upholstery options include black or blue vinyl, black or blue cloth or black self-skinned urethane.
- Soft-touch pneumatic seat height control.
- Synchronous mechanism with weight regulation.
- High-profile Euro-look base with T-shape construction for added strength and easy cleanability.
- Ergonomic seat.
- Seat depth adjustment range of 2".
- Pneumatics are available to provide low, medium and high seat height ranges to accommodate many task requirements.
- Dual-wheel non-marring polyurethane casters resist movement when the chair is unoccupied, enhancing workplace safety by inhibiting seating from rolling away.

Shown here:
Trend Series with W base, low seat height range

- 28.7" diameter, high-profile wide aluminum (W style) base.

BioFit Product Advantages

BioFit delivers more product options to meet workplace requirements and propel customers to higher operational efficiencies.

- Ergonomic design enhances worker comfort and productivity when sitting for long periods of time; easily adjusted controls to meet the needs of multiple shift users
- High-end aesthetics enhance and complement work environments
- Modular construction enables custom configurations to meet specific needs
- Standard components that many manufacturers offer only as costly upcharge options

bimos by BioFit™ Collection: Unitec

advantage: economical | use: laboratory, healthcare, industrial, education, office

With the same proven engineering as other bimos by BioFit Collection models, the Unitec offers a solution for smaller organizations or start-ups.

- Upholstery options include black or blue vinyl, black or blue cloth or black self-skinned urethane.
- Seamless protective backrest panel.
- Soft-touch pneumatic seat height control.
- High-profile Euro-look base with T-shape construction for added strength and easy cleanability.
- Ergonomic seat.
- Pneumatics are available to provide low, medium and high seat height ranges to accommodate many task requirements.
- Dual-wheel non-marring polyurethane casters resist movement when the chair is unoccupied, enhancing workplace safety by inhibiting seating from rolling away.

BioFit Product Quality

Nearly all BioFit products are warranted to the original purchaser against mechanical or structural failure due to defective material or workmanship for 13 years of normal, multi-shift use. Pneumatic cylinders are covered for the functional lifetime of the chair or stool.

BioFit seating complies with ANSI/BIFMA X5.1 product safety and performance standards guidelines as established by the Business and Institutional Furniture Manufacturers Association. BioFit seating is also LEED compliant for use in commercial interiors.

UniqueU (UU) Series

advantage: versatility | use: clean room, static control/ESD, various workspaces

These durable chairs have easy-to-clean seats and backrests that resist water, chemicals, paints and more. The versatile ergonomic seating is designed to meet clean room and ESD demands and functional design requirements. 13-year warranty.

- 16.5" wide x 12.5" self-skinned urethane backrest with ventilating ribs and integral lumbar support.
- Self-skinned urethane seat with waterfall front, shaped rear edge and ventilating ribs.
- Black powder-coated paint finish standard on metal parts.
- Pneumatics are available to provide low, medium and high seat height ranges to accommodate many task requirements.
- Dual-wheel non-marring polyurethane casters resist movement when the chair is unoccupied, enhancing workplace safety by inhibiting seating from rolling away.

Regent (RT) Series

advantage: comfort | use: healthcare, laboratory, education, industrial, static control/ESD

The addition of a streamlined backrest to this upholstered ergonomic stool series makes it a comfortable option for work and education spaces.

- Cloth and vinyl upholstery styles available to match various workspace requirements.
- Round seat with high-resilience molded foam cushioning and internal seat board bumperguard.
- Meets CAL 117 fire retardant standards. Treatment to meet CAL TB 133 available as an option (not available in California).
- Black powder-coated paint finish standard on metal parts.
- Pneumatics are available to provide low, medium and high seat height ranges to accommodate many task requirements.
- High-profile Euro-look base with T-shape construction for added strength and easy cleanability.
- Dual-wheel non-marring polyurethane casters resist movement when the chair is unoccupied, enhancing workplace safety by inhibiting seating from rolling away.

- 23" diameter tubular steel (S style) base with 21" diameter affixed footring.

- 25.6" diameter, high-profile cast aluminum (A style) base.

- 25.6" diameter, high-profile reinforced composite (R style) base.

- 28.7" diameter, high-profile wide aluminum (W style) base.

Upholsteries

BioFit offers a variety of upholstery options to choose from. For standard upholstery options, scan this QR code.

Regent Vacuum Formed (RT-VF) Series

advantage: fluid and bacterial resistance | use: healthcare, laboratory,
clean room

The vacuum formed process forms seamless vinyl upholstery precisely to the shape of seat and backrest cushioning, enabling components to maintain their shape and performance over time, maximizing user comfort while protecting against bacterial and fluid infiltration. The addition of a trapezoid-shaped backrest enhances ergonomic support.

- Available in slate blue and black, 1:10 bleach/water cleanable upholstery.
- Round seat with high-resilience molded foam cushioning, seamless upholstery and internal seat board bumperguard.
- Meets CAL 117 fire retardant standards.
- Black powder-coated paint finish standard on metal parts.
- Pneumatics are available to provide low, medium and high seat height ranges to accommodate many task requirements.
- High-profile Euro-look base with T-shape construction for added strength and easy cleanability.
- Dual-wheel non-marring polyurethane casters resist movement when the chair is unoccupied, enhancing workplace safety by inhibiting seating from rolling away.

ORDER

24 HOURS

The BioFit Quick Ship Program Just Got Quicker

Next Day Shipping Ensures Your Seating Success

Need chairs in a hurry? BioFit delivers—fast. BioFit now offers Next Day Shipping (NDS) for our customers on our most popular Elite and UniqueU seating. The NDS line includes best-selling, cost-effective next-day seating solutions for healthcare, laboratory, office, education, and industrial workplaces.

How It Works: Need chairs next-day? Select standard Elite or UniqueU seating (see the back of this flyer) and shipment will be on its way in 24 hours.* To order, simply note the Model# and contact sales@industrial-ergonomics.com

Keep your business moving even faster. Look for the orange dot for BioFit's new NDS option and get your seating solutions shipped in 24 hours.*

The BioFit Advantage: BioFit delivers more product options to meet your workplace requirements and propel your business to higher operational efficiencies.

- Ergonomic design enhances worker comfort and productivity; easily adjusted controls to meet the needs of multiple-shift users
- High-end aesthetics enhance and complement work environments
- Standard components that many manufacturers offer as costly upcharge options
- 13-year warranty on 24/7/365 day use

Look for the  for Seating that Ships in 24-Hours.

Order Today!

*NDS: Orders received at BioFit by noon EST ship Next Business Day. Order up to 9 chairs per day per customer for NDS via FedEx ground. 2DS: Orders received at BioFit by noon EST ship in 2 Business Days. Order up to 15 chairs per day. Quick Ship available in USA only. Once order is placed and credit approved, chairs will ship directly from the BioFit facility. Orders that are less than \$3,500.00 list, there will be a \$15.00 per carton handling fee. Prices are F.O.B.

Rexford Vacuum Formed (RX-VF) Series

advantage: fluid and bacterial resistance | use: healthcare, laboratory

Vacuum formed upholstery to reduce liquid and bacterial infiltration makes this stool series a smart choice for medical and laboratory settings. The vacuum formed process forms seamless vinyl upholstery precisely to the shape of seat cushioning, enabling it maintain its shape and performance over time, enhancing user comfort. Upholstery is 1:10 bleach/water cleanable.

- Available in slate blue and black upholstery.
- Round seat with high-resilience molded foam cushioning, seamless upholstery and internal seat board bumperguard.
- Meets CAL 117 fire retardant standards.
- Fingertip-controlled pneumatic activator ring enables seat height adjustment from any location around the seat perimeter.
- Pneumatics are available to provide low, medium and high seat height ranges to accommodate many task requirements.
- Black powder-coated paint finish standard on metal parts.
- Available in four base styles to meet user needs (rugged, easy-to-clean tubular steel base with affixed footing shown).
- Dual-wheel non-marring polyurethane casters resist movement when the chair is unoccupied, enhancing workplace safety by inhibiting seating from rolling away.

BioFit Customer Advantage

BioFit's focus every day is to improve the workplace experience through ergonomic performance, comfort, style and reliability.

Product Advantages—More options to meet your workplace requirements: Modular construction enables custom configurations to meet specific needs.

Product Quality—Lowers cost of ownership: Nearly all BioFit products are warranted to the original purchaser against mechanical or structural failure due to defective material or workmanship for 13 years of normal, multi-shift use. Pneumatic cylinders are covered for the functional lifetime of the chair or stool.

Supply Chain—Higher customer satisfaction: No-surprise delivered prices – ground freight to lower 48 states included on all orders over \$3,500 list pricing shown in this catalog.

Value-added Services—Assure you get the seating solution you need: Due to the modular construction of our products, users can use the Build Your Own Chair seating configurator to create, request a quote and order seating for their unique requirements, right from their smartphone. Plus, BioFit offers a 30-day “try before you buy” sample program, allowing customers to field-test seating at their location.

More Than Seating—BioFit Tables & Carts: BioFit manufactures a full line of mobile folding tables, cafeteria tables and multipurpose carts.

Discover now how BioFit can provide the solutions you need to help keep your organization operating more productively. Contact us today.

Dedicated to Design.
Committed to Quality.
