## World-class chairs

Available in two series—MVMT Pro and MVMT Tech. The feature-laden Pro series offers a dozen standard ergonomic adjustments for the office. The Tech Series, with a range of scalable options, is geared for use in the harshest industrial settings to the most technical facilities.

With the QR Code Profile System, information specific to your chair is available on your smartphone. Access operation/assembly videos, reordering information, warranty balance and more. Scan the code here for a demonstration.

## Dedicated to Design. Committed to Quality.

This is BioFit's focus every day as we strive to improve the workplace experience through ergonomic performance, style and reliability. We've been an innovator for the past 70 years, introducing solutions for science, industry, healthcare, technology and education. With a global network of over 800 independent distributors, we continue to proudly serve these industries today.

## Unique Motion Simplified.

The line is offered in two series—Pro and Tech—and available in numerous configurations to suit a range of body types and tasks. It's highlighted by an intuitive user experience featuring what may be the first self-regulating weight activation control in a specialized chair. This means it not only adjusts to the primary user's movements, but also automatically fine-tunes itself to others of various sizes and weights, sensing their individual support needs from the moment they sit down.

## Movement.

It's essential to physical wellbeing, vital to organizational performance and the driving force behind the MVMT seating line. MVMT is a global collaboration between BioFit Engineered Products and Studio Fiffeld of Milan, Italy. The result is a chair that is revolutionizing the seated worker experience, combining a decidedly European perspective with the BioFit tradition of technological precision and reliable durability.

Designed to make a statement and built to meet your needs, MVMT complements the interior trends of today's workspaces in the technology, laboratory, healthcare and industrial sectors, and offers a pragmatic balance when paired with standing workstations in office settings.

# BioFit Product Quality

The reliability and durability of BioFit products lower your cost of ownership, significantly contributing to better bottom lines:

• **13-Year Warranty** - Nearly all BioFit products are warranted to the original purchaser against mechanical or structural failure due to defective material or workmanship for 13 years of normal, multi-shift use. Pneumatic cylinders are covered for the functional lifetime of the chair or stool.

• Scan this QR code for full details.

• **QR Code Profile System** - Our proprietary QR Code Profile System is now available on the entire BioFit Seating line! Information specific to every seating unit ordered is instantly accessible on the user's smartphone. The system allows customers to access operation and assembly videos, reordering information, warranty balance and more.

• **ANSI/BIFMA Rated, LEED® Compliant** - BioFit seating complies with ANSI/BIFMA X5.1 product safety and performance standards guidelines as established by the Business and Institutional Furniture Manufacturers Association. BioFit seating is also LEED compliant for use in commercial interiors.

## Build Your Own Chair

BioFit revolutionized the industry with the launch of the BYOC seating configurator nearly a decade ago. Thanks to the modular construction of our products, you can create your desired chair, request a quote and order seating for your unique requirements right from your smartphone. Scan this QR code and try it yourself.
