WHY CHOOSE STANLEY BLACK & DECKER STORAGE SOLUTIONS?

TRUSTED FOR DECADES

For over 50 years, Stanley Black & Decker Storage Solutions has been trusted to help manufacturing facilities operate at peak efficiency. Our comprehensive range of solutions and modular approach allow us to completely and specifically address your needs.

- Utilize your space effectively
- Keep supplies close at hand
- Improve productivity
- Maximize efficiency

AMERICAN-MADE QUALITY

Best yet, our full line of solutions is Made in the USA with global materials. We rely on skilled, hands-on workers at our Allentown, PA and Holliston, MA plants to proudly manufacture our products. Don't settle for less.

WE'VE GOT YOU COVERED FROM START TO FINISH

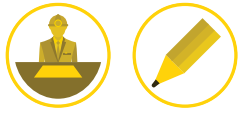

Our expert team will work with you to find the ideal solution for your facility and ensure an easy, tailored experience along the way.

1

FREE CONSULTATION

- Meet with experienced storage experts
- ROI analysis and justification
- Online system configuration, project visualization, and system planning

2

FREE PROJECT QUOTE

- Quote and project drawings delivered within 48 hours*
- 3D Renderings, system layouts, and project plans

3

EFFICIENT DELIVERY

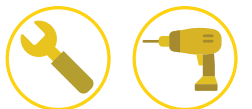

- Product delivery within 2-3 weeks (subject to change by product)
- Order tracking from start to finish

4

PROFESSIONAL INSTALLATION

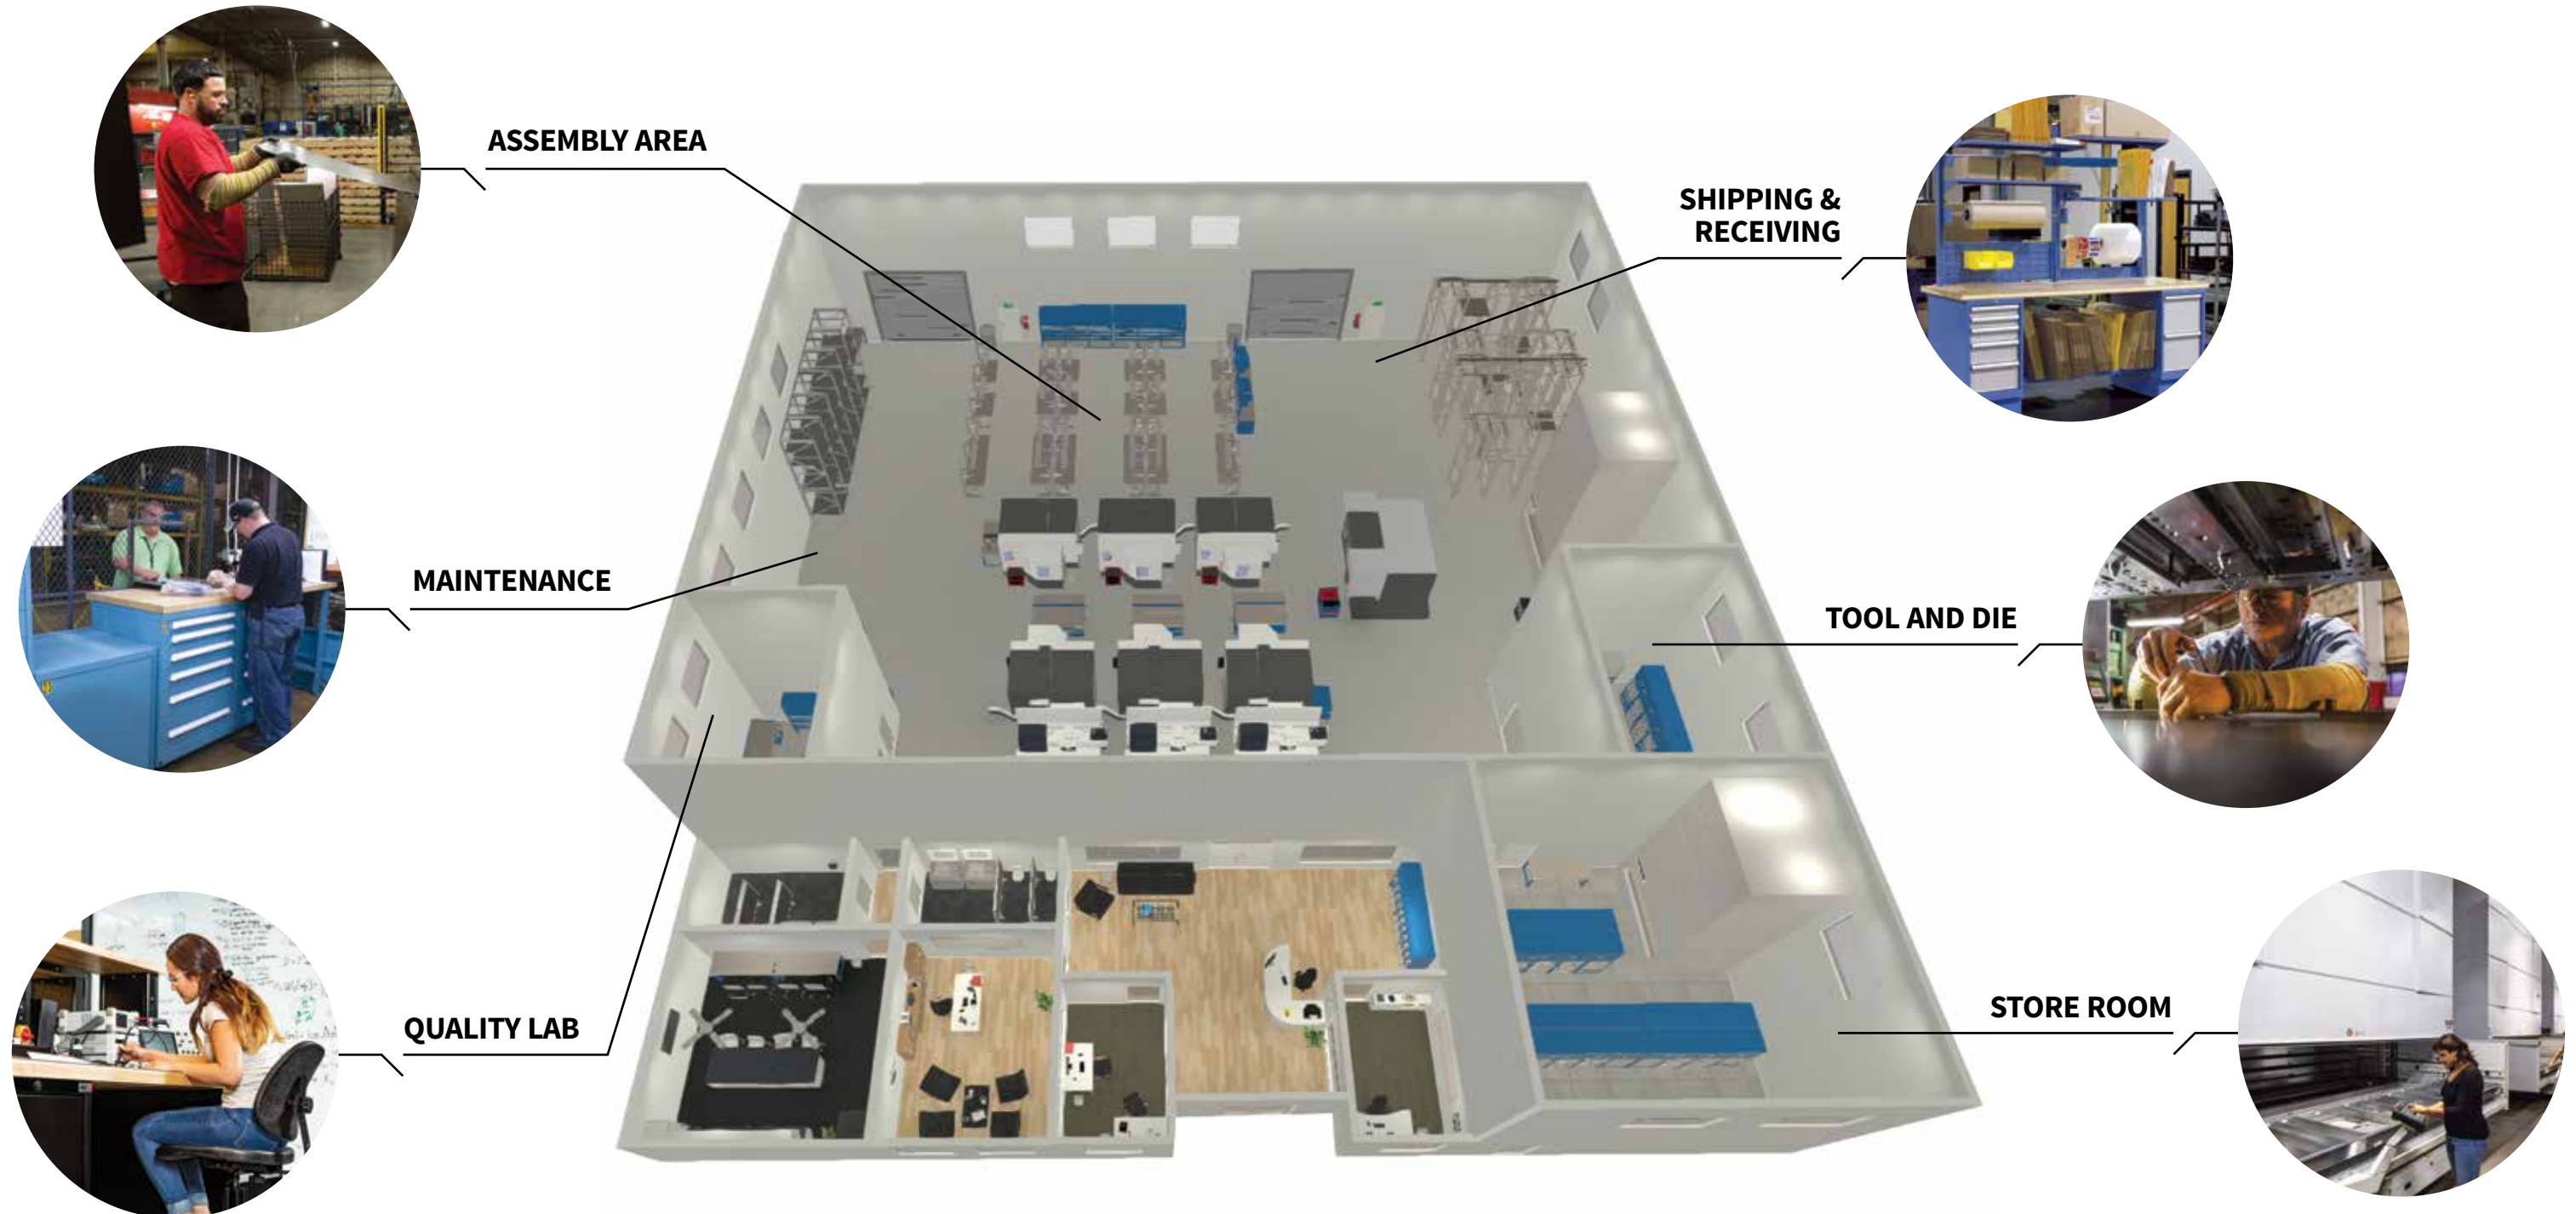

- The perfect finish

*Subject to change based on requirements

MAXIMIZE SPACE, ANYWHERE

Effective space management is crucial for every facet of your manufacturing facility. Wherever you need to maximize your storage space, we have the right solution to meet your needs.

STORE AND ACCESS ITEMS OF ALL SIZES

Keeping items secure starts in the Store Room. Our range gives you flexibility to store a wide range of items, including bulky tools and supplies, within a custom configuration.

CABINETS

- High-density storage solution to maximize your space
- Secure excess inventory, parts, and pieces

STORAGE WALL®

- Store bulky and small items in one system
- A combination of industrial-strength shelves, drawers, roll-out trays, and tough doors
- Take advantage of available height

SHELF CONVERTER® SYSTEM

- Add drawers to existing cabinets to fit your needs
- Retrofits standard 18 in. and 24 in. deep industrial shelving

STAK SYSTEM®

- Maintain inventory of high-value parts and pieces
- Removable, adjustable pallets and captive lifting and handling device
- Single-operator, automated system for fast retrieval

VERTICAL LIFT MODULES

- Minimize reaching, bending, and searching
- Manage up to 132,000 lbs. of materials from one convenient touchscreen
- Available in heights up to 40 ft.

EFFICIENT MAINTENANCE MADE EASY

When crucial machinery requires maintenance, your setup should allow you to work efficiently to fix it. Our solutions allow easy access to tools to keep you working productively.

CABINETS

- Keep tools and spare parts on hand
- Customize height, width, color, drawers, layout, and more

STORAGE WALL®

- Efficient storage and retrieval of parts and tools
- A combination of industrial-strength shelves, drawers, roll-out trays, and tough doors
- Tailor each section of the system to fit your items

SHELF CONVERTER® SYSTEM

- Add drawers to existing cabinets to create custom layouts
- Improve organization and retrieval time of key parts

TOOLBOXES, MOBILE CABINETS, AND CARTS

- Keep tools organized and at-the-ready for maintenance jobs
- Durable, versatile, and customizable range of solutions

INDUSTRIAL WORKBENCHES

- Configure the ideal solution for the task at hand
- Built for rugged durability in harsh work environments

ADD PRODUCTIVITY TO YOUR QUALITY LAB

Evaluations and testing are crucial to your operations, and your workspace should make the process as efficient as possible. Create custom workstations with our selection of options and accessories to fit your unique needs.

ALIGN® ADJUSTABLE HEIGHT WORKSTATIONS

- Optimize height for comfort and ergonomics while working
- Adjustable base allows for quick alignment for different tasks
- Custom heights help reduce fatigue, stress, and injury potential

ARLINK® 7000 WORKBENCHES

- All-purpose, affordable workbenches in a range of sizes
- Customizable worksurface options including plastic laminate, static dissipative laminate, and butcher block

INDUSTRIAL WORKBENCHES

- Increase task efficiency and comfort
- Customize work surface materials and accessories

ESD CABINETS

- StaticGard™ to facilitate a static-safe work environment
- Full range meets EOS/ESD Standard 4.1 requirements

GET YOUR TOOL AND DIE ROOM IN ORDER

Where organization and accessibility are of the utmost importance, we have the solution. Our products can help ensure that components and tooling are always close at hand.

CNC TOOL STORAGE

- Keep tooling on-hand and organized for efficiency
- Made of extruded aluminum or heavy-duty steel
- Choose V-flange, straight shank, or modular based on the size and style of tool assemblies

WORK CELLS

- Reconfigurable workstations and above-worksurface accessories
- Wide selection for ergonomics, space savings, and productivity

STAK SYSTEM®

- Store heavy dies, molds, and equipment up to 4,000 lbs.
- Removable, adjustable pallets and captive lifting and handling device
- Single-operator, automated retrieval system makes it easy

VERTICAL LIFT MODULES

- Recover up to 90% of valuable floor space
- Organization and protection of high-value items
- Minimize reaching, bending, and searching

DE-CLUTTER ASSEMBLY AREAS FOR EFFICIENCY

Keep all of your components organized with our extensive lineup of solutions. From complex tasks to basic needs, our products can help you enhance efficiency and ensure quality work.

CABINETS

- Store hardware and components needed in workflow
- Make use of every inch to maximize productivity

ALIGN® ADJUSTABLE HEIGHT WORKSTATIONS

- Custom heights help reduce fatigue, stress, and injury potential
- High level of ergonomic comfort and flexible functionality

ARLINK® 8000 WORKSTATIONS

- Adapt to multiple functions and changes in workflow
- Integrated and modular workspace

STORAGE WALL®

- A combination of industrial-strength shelves, drawers, roll-out trays, and tough doors
- Efficient storage and retrieval of parts and tools of all sizes

INDUSTRIAL WORKBENCHES/ MOBILE WORKBENCHES

- Increase efficiency and ergonomics with practical worksurface materials and accessories
- Built to stand the test of time in demanding environments

UNIQUELY DESIGNED FOR SHIPPING AND RECEIVING

For optimum efficiency, you need solutions specifically made for shipping and receiving. Our advanced solutions are customizable and flexible to accommodate your needs today and in the future.

SHIPPING AND RECEIVING WORKBENCHES

- Create the ideal configuration to pack up items with efficiency
- Fully customizable above and below the worksurface

STAK SYSTEM®

- Maintain inventory and stage incoming parts and pieces
- Captive lifting and handling device, and removeable pallets
- Single-operator, automated system

ADJUSTABLE RACKING

- Moveable pallets, instead of fixed shelves, maximize vertical space
- Stage incoming products and store bulky supplies

STORAGE WALL®

- Efficient storage and retrieval of items like packing supplies, boxes, and tape
- Configure with cabinets, shelves, drawers, and more

CABINET MEZZANINES

Cirtronics Corporation

Milford, New Hampshire

To support their transition from batch manufacturing to lean manufacturing, Cirtronics needed to replace their inefficient tables with new, individual workstations.

We set up a hands-on trial where employees could try different workstations to choose their ideal solution. Ultimately, Cirtronics went with Align® Adjustable Height Workstations in every department, including assembly, inspection, machining, and more. Every worker now has their own workspace, custom-configured for their needs.

With updated workstations, we helped Cirtronics meet their goals for quicker turnarounds, lower inventory exposure, higher quality, more responsive delivery, and worker satisfaction.
